

Supplementary notice

SUPPLEMENTARY WATER ACCESS FOR MURRUMBIDGEE

21 February 2023

Department of Planning and Environment - Water has approved access to supplementary water in the Murrumbidgee River. Airspace releases have ceased at Burrinjuck and Blowering dams with releases matching demand. Supplementary access is extended in some sections of the Yanco Creek System as shown in page two.

Regulated river (general security) access licence holders are reminded that now all diversions count towards the annual usage limit of 100% of entitlement (excludes trades into accounts).

Customers wishing to access supplementary water must provide a START meter reading and place a complying water order using one of the following options:

- Accessing WWW.WaterNSW.com.au and registering or logging on to your *iWAS* account.
- Faxing your order to **1300 871 447**
- Emailing your order to south.orders@waternsw.com.au
- Telephoning your order to **1300 662 077** During business hours

[Water order forms](#) are available from the Water NSW web site.

Customers are reminded that with the conclusion of supplementary access an END meter reading must be provided, and as regulated flow conditions would resume, water orders must be placed in accordance with their licence conditions.

WaterNSW will continue to monitor the situation closely and further advice, if required, will be issued on or before Tuesday 28th February 2023.

(See page 2 for details of supplementary availability).
